

Linea® series feature classic, straightforward profiles with an elegant timeless look, designed to tastefully enhance your brand and effectively communicate your message.

Concurva® series offer distinguished, fluid, concave profiles

that set it apart from ordinary display systems. It's unique, graceful design promotes high visibility and focuses your customers' attention on the message you want to present.

Concurva® and Linea® are two of VGS's most popular display series. Both feature VGS' MagaLens®, so your displays are instantly updated by lifting the lens and slipping in your new graphic. Choose from a wide range of sizes and formats - from item identification to poster sizes and CounterToppers® to wall, ceiling and freestanding models to create a cohesive program tailored to your specifications.

**Think.
Create.
Experience.**

Design, Build & Buy It Online!

Available online at www.vgsonline.com, VGS' unique "builder" wizard prompts you through all the available size, décor, lens layouts and message options and provides a "what you see is what you get" illustration of your custom tailored display. You can even print it out and add it to your shopping cart with a single click.

Update Options You Control!

You're in control with our exclusive MagaLens® system. Simply lift the durable Lexan® cover and install your printed graphic inserts in seconds. Designed for the digital age, VGS fixtures use plain paper inserts you can generate from conventional laser and inkjet printers. And with our Sign-O-Matic™ software, you can design and print your own inserts like a professional!

Popular Applications:
