

Across the country, financial institutions are working with VGS' innovative display/fixtures systems and signage programs in both their corporate offices and retail branch locations. In today's competitive marketplace, we understand your need to create a professional, inviting environment for your customers while balancing a results-focused atmosphere for your staff. You need to implement new technologies and programs that attract and service customers and staff with maximum impact and efficiency.

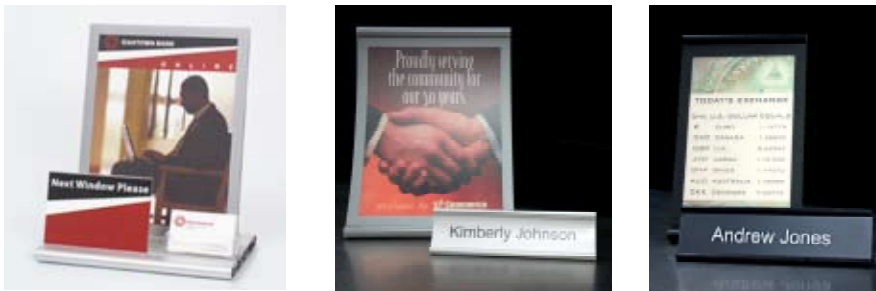

To help set you apart, VGS offers a wide selection of eco-friendly solutions, digital and proprietary displays/signage designed to facilitate anything from point of sale informational floor and countertop displays to fully integrated interior and exterior ID and signage programs.

With VGS, you are assured of consistently superior results, whether you have a single facility or multiple branches around the world.

Think.  
Create.  
Experience.

Update Options You Control

You're in control with our exclusive MagaLens® system, simply lift the durable Lexan® cover and install your printed graphic inserts in second. Designed for the digital age, VGS fixtures use plain paper inserts you can generate from conventional laser and inkjet printers. And with our Sign-O-Matic™ software, you can design and print your own inserts like a professional!
